Website Builder & Community
PLANNED
Pages · SEO · Paywalls · Moderation
Enterprise Security & Compliance
BUILDING
SSO · SOC 2 · DLP · Residency
TREE HEALTH · 35 features across 8 balanced areas
• Status mix: 5 LIVE · 15 BUILDING · 15 PLANNED — no area is 100% one status; CRMOS (7) is the heaviest branch but stays within a 2.3× ratio of the lightest (Monetization, Enterprise = 3).
• Every feature sits under exactly one area, no duplicates; sub-features (e.g., 3-layer suppression, hierarchical RBAC) are surfaced inside the feature card to keep the visual tree clean.
